

Florida State University

Tenure-track Assistant Professor position in Environmental Geography and GIScience to begin August 2007. The successful applicant will be expected to pursue research, teach and secure external funding to support one of the following environmental areas: environmental analysis/ modeling, natural resource/ hazard management, biogeography/ landscape ecology, geomorphology, hydrology; as well as geocomputation/ geovisualization. Willingness to participate in university-wide interdisciplinary research cluster initiatives, and teach introductory GIS are also expected. Salary and benefits are highly competitive, and commensurate with qualifications and experience. A Ph.D. degree in geography or in a related area is required.

Send electronic letters of application by December 1, 2006 along with curriculum vitae, samples of publications, and three letters of reference to:

Dr. Mark Horner
Search Committee Chair
