

HILARY KATHERINE McMILLAN

Department of Geography, San Diego State University, San Diego, CA 92182-4493
Email: hmcmillan@sdsu.edu

HIGHER EDUCATION

- 2002-2006 **PhD** Department of Geography, Cambridge University, UK
Thesis '*End-to-End Flood Risk Assessment: A Coupled Model Cascade with Uncertainty Estimation*'
- 2001-2002 **MRes Science of the Environment, Distinction** Lancaster University, UK
Thesis '*Discharge Estimation in ungauged sub-catchments of the River Eden, UK*'
- 1996-1999 **MA Mathematics, 1st Class** Cambridge University, UK

WORK HISTORY

- 2022 to date **Professor of Water Resources.** Dept of Geography, San Diego State University, US.
- 2018-2022 **Associate Professor of Water Resources.** Dept of Geography, San Diego State University, US.
- 2016-2018 **Associate Professor of Water Resources (without Tenure).** Dept of Geography, San Diego State University, US.
- 2007-2016 **Hydrological Scientist.** Hydrological Processes group, National Institute of Water and Atmospheric Research (NIWA), Christchurch, New Zealand.
- 2006-2007 **Marsden Postdoctoral Fellow.** Massey University, Palmerston North, New Zealand.
'*Hyperconcentrated flow dynamics in volcanic lahars*'

RESEARCH GRANTS HELD

[All figures given in US\$ equivalents if awarded overseas]

- 2021–2025 \$294,998, PI. *A framework to predict hydrologic processes at continental scales*, NSF Hydrology Program.
- 2023–2024 \$103,154, PI. *Hydrology Learning Community*, Global HSI Equity Innovation Hub.
- 2023–2024 \$10,280, PI. *Apple Technology Grant*.
- 2022–2024 \$314,325, of which \$109,050 to SDSU, PI. *Developing a diverse hydrology workforce through an undergraduate hydrological research experience in a coastal California watershed*, NSF Geopaths Program,
- 2021–2024 \$293,846, PI. *Missing the main load? Quantifying marine debris loadings from storm drain and river margin sources in the San Diego River*, NOAA Marine Debris Program.
- 2021–2022 \$14,998, PI. *Predicting Hydrologic Vulnerability in San Diego County using Machine Learning*, Southern California Coastal Water Research Project.
- 2019-2021 \$499,810, of which \$31,006 to SDSU, AI. *Evaluation and Improvement of Snowmelt Processes in the National Water Model During Extreme Atmospheric River Events*. National Oceanic and Atmospheric Administration.
- 2019-2023 \$217,978, Subcontract PI. *Hydrologic Model Evaluation for Forecast Informed Reservoir Operations*, UC San Diego/U.S. Army Corps of Engineers.
- 2020-2021 \$18,709, of which \$6,237 to SDSU, PI. *Quantifying water storage and runoff processes in coastal California watersheds through a GEOPATHS hydrological field experience for CSU undergraduates*. CSU Council on Ocean Affairs, Science and Technology (COAST) Grant Development Program Award.
- 2019-2020 \$56,684. Subcontract PI. *Atmospheric Rivers Hydrology Research*, UC San Diego/U.S. Army Corps of Engineers.

- 2019-2020 \$9,919, PI. *Mapping how urban landscapes control flood magnitude in Southern California*. SDSU University Grants Program.
- 2017-2019 \$65,216, PI. *Surface Water Isotope Composition in Mission Valley*. City of San Diego.
- 2018-2019 \$9,988, PI. *Urban agriculture: Environmental resource or environmental pressure?*, SDSU University Grants Program.
- 2012-2016 \$2,800,000, PI. *Waterscape 2*, MBIE (Ministry for Business, Innovation and Employment) research grant (NZ)
- 2010-2016 \$2,600,000, AI. *Reducing the impacts of Weather Related Hazards*, MBIE research grant (NZ). [Dollar value quoted is the portion of the total grant for which I was project leader]
- 2015-2016 \$11,600, PI. *Accounting for the uncertainty of streamflow records in unstable rivers for water resource modelling*. Dumont D'Urville Fund, Royal Society of NZ, for NZ-France collaboration.
- 2010-2012 \$350,000, AI. *Catchment Hydrology*, AI, MBIE research grant (NZ).
- 2012-2013 \$23,000, PI. *Waterscape Hawkes Bay*. National Institute for Water and Atmospheric Research (NIWA, NZ).
- 2011-2012 \$46,000, PI. *Water tracking hydrological model for contaminant transfer*. NIWA, NZ
- 2010-2011 \$40,000, PI. *Water and Contaminant Tracking*. NIWA, NZ
- 2009-2010 \$112,000, PI. '*Flood Risk under Climate Change*'. Ministry for Agriculture and Forestry (NZ).
- 2009-2010 \$54,000, PI. '*Improvements in hydrological process modelling for applications in flow forecasting*', NIWA, NZ.
- 2008-2009 \$54,000, PI. '*Hydrological model calibration in catchments with heterogeneous geology*', NIWA, NZ
- 2009 \$4,000. International Science and Technology Linkages Fund, Royal Society of NZ.

INVITED/KEYNOTE PRESENTATIONS

- 2023 Seminar Speaker in the 2023 Women Advancing River Research Seminar Series "*Hydrological Data Synthesis to Understand Streamflows*"
- 2023 Seminar Speaker at University of Calgary, Canada. "*Large-sample learning about hydrologic processes*"
- 2022 Seminar Speaker at University of Bristol, University of Potsdam and IVL Sweden. "*Naming, sharing and predicting hydrological processes*"
- 2019 Invited speaker at American Geophysical Union conference (AGU), San Francisco. "*Process-based diagnostics for hydrologic models*"
- 2018 Invited speaker at American Geophysical Union conference (AGU), San Francisco. "*Using hydrologic signatures to extract information from data and evaluate models across scales*"
- 2017 Seminar Speaker at UC Santa Barbara and UC Irvine, '*Hydrological Signatures: Windows into a Watershed*'. [Many earlier seminar presentations omitted]
- 2017 Keynote speaker to workshop on Improving the theoretical underpinnings of hydrologic models, Sopron, Hungary "*Towards hydrologic models for a world of human impacts*"
- 2016 Invited speaker at European Geosciences Union conference (EGU), Vienna, Austria, "*Catchment water storage: Models vs Measurements*"
- 2015 Keynote speaker to Berkeley Catchment Symposium, San Francisco, "*Where do national hydrology models perform well or badly and why?*"
- 2015 Invited speaker at AGU, San Francisco, "*Hydrological Uncertainty: Reasons to Be Cheerful*"
- 2015 Keynote speaker to Gordon Research Conference on Catchment Science, Boston, '*Hydrological signatures: use and abuse*'.
- 2013 Invited speaker at AGU, San Francisco, '*Benchmarking Uncertainty for Hydrology*'

- 2013 Invited speaker at EGU, Vienna, Austria, ‘*Spatial organisation in hydrological model structures*’
- 2012 Keynote speaker ‘*Making the most of hydrological data*’ and invited speaker ‘*Using data from research basins to identify appropriate model structures*’ at IAHS Conference in Delft, Netherlands

SCHOLARLY AWARDS

- 2022 Presidential Research Award for outstanding research, scholarship and creative endeavours, San Diego State University, including prize of \$25,000.
- 2018 Excellence in Research Award for Tenure-Track Faculty, SDSU College of Arts and Letters
- 2012 American Geophysical Union 2012 Editor’s Citation for Excellence in Refereeing
- 2002 - 2003 Selwyn College Graduate Scholarship (for distinction in postgraduate study)
- 2002 - 2005 Natural Environment Research Council UK (NERC) PhD Scholarship with NERC PhD CASE Award (Co-operative Award in Science and Engineering).
- 2001 - 2002 Natural Environment Research Council UK (NERC) Masters Scholarship.

TEACHING EXPERIENCE

Instruction (at San Diego State University)

- Practical Hydrologic Modeling* Postgraduate/Undergraduate, Spring 2019/2020/2022.
- CUAHSI Virtual University* Postgraduate, Fall 2020.
- Hydrology and Global Environmental Change* Postgraduate/Undergraduate, Spring 2017/2018, Fall 2018/2020/2021.
- Hydrology Research Experience* Undergraduate, Fall 2023
- Environmental Hydrology* Undergraduate, Fall 2016/2017/2018.

Teaching Fellowships and Awards

- 2021 \$10,000 award. Theme Leader for CUAHSI National Water Center Innovators Program Summer Institute for graduate students in hydrology, ‘*Next-generation National Water Model*’
- 2020 \$3,000 award. Summer teaching fellowship with HydroLearn, an NSF-funded online hydrology education platform, developing learning resources on the topic of hydrologic drought.
- 2019 \$10,000 award. Theme Leader for CUAHSI National Water Center Innovators Program Summer Institute, ‘*Scaling hydrologic and hydraulic models from small basins to regional watersheds*’

Doctoral Advising

- 2021 to date PhD Committee Chair, R. Araki, San Diego State University. ‘*Quantifying surface and subsurface soil moisture dynamics from satellite and field observations*’.
- 2018 to date PhD Committee Chair, D. Kim, San Diego State University. ‘*Hydrologic modeling of heterogeneous urban landscapes*’
- 2023 to date PhD Committee Member, C. Abe, San Diego State University. ‘*Geophysical and Human Drivers of Dry-Season Low Flows and Pasture Quality in Rondônia – Southwestern Brazilian Amazon Basin.*’
- 2021 to date PhD Committee Member, J. Bissell, San Diego State University.. ‘*Stream network dynamics under climate change and anthropogenic disturbance*’
- 2020 PhD Internship Advisor, S. Gnann, Bristol University, UK. ‘*Linking baseflow generating processes to catchment attributes*’

- 2021 to date PhD Committee Member, R. King, San Diego State University. “*Multi-scale electromagnetic observations of geologic and anthropogenic phenomena*”.
- 2016 to date PhD Committee External Member, I. Horner, IRSTEA, France. ‘*Diagnostic-evaluation of distributed models using hydrological signatures*’.
- 2015 PhD Internship Advisor, T. Euser, TU Delft, Netherlands. ‘*Influence of soil and climate on root zone storage capacity*’.

Masters Advising (at San Diego State University/MS Watershed Science unless specified)

- 2023 to date MS Committee Chair, M. Rahimi. “*Streamflow dynamics in watersheds dominated by overland flow processes*”
- 2022 to date MS Committee Chair, A. Holt. “*Continental-scale Controls on Baseflow Patterns*”
- 2022 to date MS Committee Chair, T. Palmer. “*A “trash balance” model of the San Diego River: Integrating riverine marine debris input, transport, storage, remobilization and export into a mass balance model*”.
- 2021 to date MS Committee Chair, L. Bolotin. “*Identifying and characterizing vulnerability to overland flow in continental U.S. catchments using hydrologic signatures*”
- 2020 - 2022 MS Committee Chair, J. Tang. “*To what extent do Narrow Cold Frontal Rainbands cause urban flooding in Southern California?*”
- 2019 - 2021 MS Committee Chair, R. Araki. ‘*Quantifying temporal surface-subsurface dynamics from in-situ soil moisture network observation under different land uses*’
- 2017 -2019 MS Committee Chair, S. Wallace. ‘*Isotopic separation of groundwater recharge sources, San Diego*’
- 2017 - 2019 MS Committee Chair, A. Scurlock. ‘*Hydrologic benefits and stressors of urban agriculture*’
- 2023 – 2024 MS Committee Member, C. Cortez “*Sustainable Enhancement of Multi-Layered Evapotranspiration Landfill Covers: A Hydro-Mechanical Investigation through Experimentation and Numerical Analysis*”, MS Environmental Engineering
- 2021 - 2022 MS Committee Member, V. O’Hara-Rhi “*Flood Extent Prediction in the Urban Transportation Environment*”, MS Civil Engineering.
- 2021 – 2021 MS Committee Member, B. Wilder, “*Runoff prediction and ecohydrological recovery for small catchments after fire in Southern California*”, MS Civil Engineering.
- 2018 to date MS Committee Member, S. Roberts. ‘*Hydrologic Change Along the All-American Canal*’
- 2017 - 2019 MS Committee Member, C. Monteverde. ‘*Climate Change Impacts on Winegrowing Regions in Southern California: From the Perspective of a Regional Climate Model.*’
- 2018 - 2019 MS Committee Member, F. Farhang. *Human Health Risk Assessment of Heavy Metals and Pathogens in the Olifants River, South Africa*. Master of Public Health.
- 2018 - 2019 MS Committee Member, G. McGurk. *Geochemical Sediment Source Identification in a Semi-Arid Urbanized Watershed: Implications for improved soil loss modelling.*
- 2018 - 2019 MS Committee Member, L. De La Torre. ‘*Characterizing hyporheic exchange and nutrient retention in restored urban streams*’
- 2016 - 2018 MS Committee Member, R. Feddema. ‘*Groundwater quality change in the Mexicali valley, Mexico*’
- 2016 - 2018 MS Committee Member, L. Barrett. ‘*Runoff Sensitivity to Climate Variability in California.*’
- 2018 to date MS Thesis Advisor, M. Ende, U. Amsterdam, ‘*Urban irrigation in the WRF-Hydro model*’
- 2011 MS Committee Co-Chair, D. Gawith, Otago University, NZ. ‘*Climate change effects on runoff in the Lindis and Matukituki catchments, Otago, NZ*’
- 2010 MS Thesis Advisor, M. Gaj, Freiburg University, Germany. ‘*Hydrological soil response in NZ*’

Bachelors Honors Advising (Overseas students undertaking theses at NIWA Research Institute, NZ)

- 2014 M. Douziech, ETH Zürich, Switzerland. ‘*Analysis of high and low resolution numerical weather prediction model inputs and their influence on hydrological model flow predictions*’.
- 2013 A. Gago, Montpellier University, France. ‘*Storm responses of soil moisture, groundwater and flow*’
- 2013 T. Finucane, Birmingham University, UK. *Groundwater and surface water interactions interpreted from piezometer, flow gauge and shallow well data*’
- 2012 M. Gueguen, Montpellier SupAgro, France. ‘*Controls on runoff ratio in Mahurangi Catchment, NZ*’.
- 2010 E. Grimon, Birmingham University, UK. ‘*Hydrologic recession behaviour in small catchments*’.

Workshop Organisation

- 2010 *Hydrologic Impacts of Climate Change*. New Zealand Hydrological Society, Dunedin, NZ.
- 2009 *Managing with Uncertainty*. New Zealand Hydrological Society, Whangarei, NZ.

PROFESSIONAL SERVICE

- 2023 External Reviewer for Promotion to Full Professor, Oregon State University
- 2023 External PhD examiner for Hoseung Jung, Humboldt-Universität zu Berlin, Germany
- 2020 – date Director of the SDSU Geography Department Masters Program
- 2020 – 2021 Editor for Special Issue of *Hydrological Processes* journal, on “*Impacts of observational uncertainty on analysis and modelling of hydrological processes*”.
- 2021 – date Leadership Team member for International Association of Hydrological Sciences (IAHS) Flagship project ‘Panta Rhei: Hydrology, Society and Change’
- 2021 NSF Hydrologic Sciences Program, External Reviewer
- 2021 External Reviewer for Tenure Case, University of Cincinnati
- 2020 External PhD examiner for D. Khadka, University of Canterbury - Te Whare Wānanga o Waitaha, Christchurch, New Zealand
- 2019 – date Co-Chair (for 2023)/Chair (for 2025) of the Gordon Research Conference (GRC) in Catchment Science: Interactions of Hydrology, Biology and Geochemistry
- 2019 –date Editor for Special Issue of Hydrology and Earth System Sciences Journal, on “*Linking landscape organisation and hydrological functioning: from hypotheses and observations to concepts, models and understanding*”
- 2019, 2020 NSF Hydrologic Sciences Program, Panel Member.
- 2019 External Reviewer for Tenure Case, Ohio State University
- 2018 to date Member of American Geophysical Union Technical Committee on *Catchment Hydrology*
- 2018 External expert advisor on search committee for Associate Senior Lecturer in Surface Water Hydrology (Tenure-track) at Uppsala University, Sweden
- 2017 External PhD examiner for Dr. T. de Boer-Euser, TU Delft, Netherlands
- 2016 to date Associate Editor for *Hydrological Processes* and *Hydrology and Earth System Sciences*
- 2015 - 2017 Chair of International Association of Hydrological Sciences (IAHS) Flagship project ‘*Panta Rhei: Hydrology, Society and Change*’
- 2014 - 2017 Hydrology Editor for EGU/Copernicus journal *Geoscientific Model Development*
- 2013 - 2016 Invited member of USGS Powell Center international working group on ‘*Water Availability for Ungauged Rivers*’
- 2013 - 2015 Objective Leader ‘Science Understanding’ IAHS *Panta Rhei* Biennium 2013-2015

- 2010 to date Grant proposal reviewer for NSF, Swiss National Science Foundation, Luxembourg National Research Fund, and Netherlands Organisation for Scientific Research.
- 2007 to date Regular reviewer for *Water Resources Research*, *Journal of Hydrology*, *Hydrological Processes*, and *Hydrology and Earth System Sciences*

PUBLICATIONS (H-index = 33)

Note: Where the first author is a graduate student under my supervision, the paper is marked with **, and for a visiting graduate student under my supervision, the paper is marked with *.
